Project Description

Principal's Priority

1

Some years ago, each of the teachers was given laptops to assist them in their teaching fields. As time went on, more and more of the District laptops broke down and were not replaced. Presently, the majority of our teachers are still using outdated desktop computers or have personally bought laptops to replace the District laptops that have broken. The computers are essential to the classroom teacher, they assist them in lesson planning, grading and organizing a wide range of activities that take place in the classroom. By providing the Kasuun Elementary classroom teachers laptops they will be able to better manage their time not only in the classroom, but also at home where many hours of preparation takes place. Our request is for the following:

21-13" MacBooks, 2.1 GHz, Intel Core 2 duo, 1 GB DDR2 Memory, 120 GB hard drive

We are requesting \$25,000 for these computers, this will include the cost of the computers and all shipping and handling fees.

Benefits if Project is Funded

Provide classroom teachers the necessary technological equipment to assist them in lesson planning, student grading, and organizing and accomplishing a wide range of activities that take place in and out of the classroom. By providing the Kasuun Elementary classroom teachers laptops they will be able to better manage their time not only in the classroom but also at home where many hours of preparation takes place.

Impacts if Project is not Funded

of Students impacted by project 470

Project Start Year 2010
Project Finish Year 2010
